

STRUCTURAL ENGINEERING AND INSPECTIONS, INC.  
S E I

*Stucco Failure:*  
Factors That Cause Damage

**Stucco cracking is becoming a common issue in the building industry. Please join us for a free continuing education course (CEU) and learn more about proper installation of stucco and metal lath to help minimize your warranty claims.**

**Speaker, Thomas E. Miller, P.E., Neutral Evaluator, Certified Wind Umpire, is a principal engineer at Structural Engineering and Inspections, Inc. who has been involved in truss design/repairs, threshold inspections, quality assurance inspections, sinkhole investigation, new construction and design, along with many other types of projects during his 17+ years in the engineering field.**
